

## Service Offerings

*“Expanding  
Your Reach”*

Phoenix Group

The Phoenix Group prides itself on being the nation’s largest most reliable services management company. We provide custom support solutions for today’s most popular hardware and software related environments. Whether your company requires on-site installation or maintenance, The Phoenix Group will present a support solution to meet your specific needs.

Our core focus is to offer multiple levels of technology solutions that have been mastered through time-proven engineering, design, deployment and maintenance. Expertise in areas such as; Optics, WLAN, Wi-Fi Wireless networks, advanced Digital Signage for advertisement, teaching, and displaying technological information. The Phoenix Group supports solutions in video, voice and data systems, as well as a full complement of security networks in IP cameras, fire and burglar alarms and full fire protection networks for server rooms to major corporate facilities. The Phoenix Group also offers POS, LAN and Asset Recovery from minor projects to full turnkey installations.
