

Leading IT Services Provider

*"Expanding
Your Reach"*

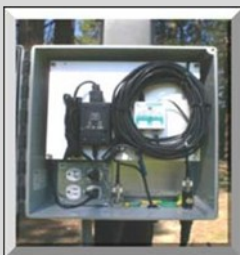

Phoinix Group

The Phoinix Group has led the nation in professional service support for over ten years. Its initial core business of IT Management support has become the professional model that created today's compliment of multiple services for a wide range of technologies. The key success of The Phoinix Group is our ability to meet all service requirements anywhere, at any time, and always on time.

Today's overall support brings services from single product work to full Turn-Key Service capabilities from site survey, design, installation, fire-up, turn-over and on-going maintenance coverage's.
